

# Cutting Board Oil

- Deeply penetrates into wood pores, bringing out the rich natural wood color and helps prevent drying and cracking of butcher blocks
- Made with pure USP Food-Grade Mineral Oil that is tasteless, odorless, colorless, and will never go rancid
- Perfect for the initial “oiling” or “seasoning” of cutting boards and butcher blocks
- The mineral oil in this product exceeds U.S. FDA regulations for direct and indirect contact with food

*Colorless, Odorless, and Tasteless!*

## Butcher Block Conditioner

- Brings out the wood grain and protects with a natural looking satin wax finish
- Food-Grade wood conditioner for butcher blocks, cutting boards, wooden bowls, and utensils
- Can be used on butcher block countertops to achieve a natural-looking satin wax finish
- Helps repair knife marks and protect the wood by keeping the mineral oil in and the moisture out
- Revitalizing blend of food-grade mineral oil, beeswax, and carnauba wax

*Food-Grade Protection!*

## Cutting Board Cleaner

- Cleans and neutralizes odors on well-used cutting surfaces
- Safe to use on surfaces that may come into contact with food
- For use on cutting boards, countertops, butcher blocks, and wooden utensils
- Safely clean any wood surface, leaving it with a fresh scent
- Great for cleaning and preparing wood surfaces before applying Cutting Board Oil or Butcher Block Conditioner

## Wax-It-All® Food-Grade Wax

A Food-grade paste wax that is safe for any surface where food contact may occur. This thick, smooth blend of beeswax, carnauba wax, and food grade mineral oil revives faded surfaces and helps protect wood from drying out and cracking.

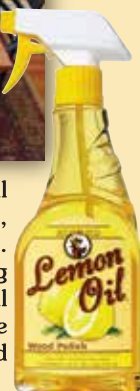

- Safe for indoor and outdoor countertop surfaces
- Helps delay tarnishing and oxidation of bronze, copper, brass, and even wrought iron
- Gives finishes a soft sheen and a smooth feel
- Locks in the oils and waxes after using Howard's Cutting Board Oil or Butcher Block Conditioner

*Use on: Wood, Stone, Metal, Concrete, Plastic, and More!*

## Orange Oil/Lemon Oil Wood Polish

- Polishes all wood furniture to a nice shine
- Leaves a pleasant scent of oranges/lemons
- Conditions finished and unfinished wood surfaces to a beautiful glow
- Helps prevent drying and fading of all your wood furniture
- Easily removes surface dirt and dust without drying out or harming the wood

Use Howard Orange Oil and Lemon Oil on all wood surfaces including kitchen cabinets, tables, chairs, desks, paneling, even antiques. These oils will help keep your wood from drying out while restoring depth of grain and natural beauty to the wood. They are both easy to use and excellent for polishing, conditioning, and nourishing all wood surfaces.

*Does not contain silicone oil or linseed oil  
Not intended for food-prep surfaces*

## Citrus-Shield™ Premium Paste Wax

- Conditions and enhances the natural beauty of the wood grain on finished and unfinished woods
- Buffs to a brilliant, long-lasting shine, providing superior protection for all your wood and wood finishes
- Contains real Brazilian Carnauba wax (hardest natural wax available)
- May also be used on painted surfaces, concrete, marble, and metal
- Not intended for food-prep surfaces

## SunShield™ Wood Conditioner

- Prevents further drying and fading of wood finishes due to sun exposure, temperature variations, and moisture both indoors and outdoors
- Enhances the natural beauty and depth of grain as it protects your wood furniture
- Unique formula combines **UV inhibitors** with a blend of carnauba wax, beeswax, and orange oil
- Conditions and protects any wood surface, especially teak and other tropical hardwoods
- Replenishes finished or unfinished dry wood surfaces on chairs, tables, benches, chests, desks, lounge chairs, etc.

## Stainless Steel Cleaner & Polish

- Superior streak-free formula easily removes fingerprints, streaks, grime and grease
- Cleans residential and commercial stainless steel kitchen surfaces and appliances
- Perfect addition to your cleaning arsenal for housekeepers and do-it-yourselfers
- High-quality formula makes cleaning stainless steel convenient and easy
- Works great on outdoor stainless steel grills and appliances

## Leather Cleaner

Gently removes dirt, grime, and most other stains from smooth leather. Use on leather furniture, automotive leather, luggage, shoes, and accessories. Ideal for cleaning and preparing leather surfaces before using Howard Leather Conditioner or Leather Salve.

- Safely clean leather goods without damaging the leather or stitching
- Routine leather cleaning and conditioning will help your quality leather goods last a lifetime
- May also be used on vinyl and plastic
- Do not use on Suede, Nubuck, or Aniline

## Leather Conditioner

- Unique blend of deep nourishing moisturizers and natural waxes helps keep leather looking and feeling like new
- Revives dried-out leather back to its soft, natural condition without becoming oily or sticky
- Creamy lotion-like conditioner that penetrates, preserves, and protects smooth leather
- Helps leather resist cracking, scuffing, and dry rot

*Penetrates and Protects!*

## Premium Leather Salve

- A deep penetrating conditioner to revive old leather and help protect new leather
- Premium formula helps to reduce scratches and help preserve leather
- Protects leather from future decay with beeswax and carnauba wax
- Rejuvenates leather surfaces using the finest refined oils including purified Lanolin, Neatsfoot, and Coconut Oil
- Easily restores dry leather back to its soft, natural condition

*A little goes a long way!*

## Restor-A-Finish®

- Restores color and luster to faded finishes
- Eliminates white heat rings and water marks
- Blends out scratches and blemishes
- Will not dissolve existing finish

Available in nine colors. Use the color chart on this brochure to help you select the Restor-A-Finish shade that best matches the finish you are restoring.

### "Restore It - Don't Strip It!"

With a simple wipe-on, wipe-off process, most finished wood surfaces that seem to need a complete refinishing job can be restored in a few minutes. White heat rings and water marks, sun fade, oxidation, smoke damage, and most other blemishes can be quickly blended away. Before you go to the extreme of stripping it, try restoring it!

### How Does It Work?

Restor-A-Finish is a unique finish-penetrating formula that contains a small amount of stain combined with just the right amount of solvent and restoring oils, giving it the ability to permanently restore the existing finish without removing, softening, or stripping it. Restor-A-Finish penetrates faded lacquer, shellac, and varnish finishes to bring back the original color and luster. It restores the depth of grain, going much deeper than temporary "scratch cover" products. Restor-A-Finish penetrates and permanently restores most wood

finishes without removing any of the existing finish. Restor-A-Finish works best when applied with a small pad of cloth, or for severe white rings or oxidation, super fine (0000) Steel Wool. For carved surfaces, you may use a small paint brush or soft toothbrush. Never pour Restor-A-Finish directly onto the finish. Always wipe dry.

### Precautions:

DO NOT APPLY POLYURETHANE OVER RESTOR-A-FINISH. DO NOT apply Restor-A-Finish to imitation wood finishes or use as a stain. Be careful to protect fabric, carpets, or linoleum when applying Restor-A-Finish as it may leave a permanent mark. If spilling does occur, immediately scrub area with soap and water or a stain remover and wipe dry. Be sure to apply to a small area at a time when using Restor-A-Finish. Always wipe dry. **Fully read directions and cautions on product label before using. More product information and product Safety Data Sheets available at [www.HowardProducts.com](http://www.HowardProducts.com)**

## Feed-N-Wax®

- Enhances the natural beauty and depth of grain in finished and unfinished wood
- Prevents drying and deterioration of all wood finishes
- Polishes all wood surfaces to a soft luster with a protective coating of carnauba wax and beeswax
- Use Feed-N-Wax after Restor-A-Finish to maintain the restored finish
- For use on antiques, dining tables, kitchen cabinets, wood doors, trim, etc.

### Wood Polish & Conditioner

Feed-N-Wax is ideal for enhancing the natural depth of grain while providing added protection and luster to furniture, antiques, and cabinets. Feed-N-Wax helps introduce conditioning oils that "feed" the wood while providing a protective coating of beeswax and carnauba wax. Feed-N-Wax can be used on finished or unfinished wood to help preserve and keep the wood from drying out, fading, or even cracking. Feed-N-Wax should be used whenever the piece looks faded or dry.

Before

After!

### Enhance The Natural Beauty

Our original blend of beeswax, carnauba wax, mineral oil and orange oil is the perfect product to enhance the natural beauty and depth of grain in all woods, finished and unfinished. Feed-N-Wax was developed as the perfect follow-up to Restor-A-Finish for maintaining the newly restored finish. Contains no silicone or linseed oils. Not intended for food-prep surfaces. For food-prep surfaces use Howard's Butcher Block Conditioner, Cutting Board Oil, or Wax-It-All.

## Restor-A-Finish® Color Chart

Choose the color that best matches the finish of your wood.
